of course Johnny took the measles in due time—
in the mean time visiting at Byall's at Thanksgiving and
She arranged to go to Mansfield to see Martha who was
Some sort of an Invalid, it grew cold Snowed some,
that night John seemed to have a very bad cold we all
returned to Wooster next day & as soon as we could get up
to James Bruces from the train John went to bed, next A. M.
had the Dr. John had Measles, and was very sick, we were
quite apart from the rest of the house—being in the Parlor
& its bed room off of it; I nursed the Dr came every day,
One day I told Maggie of our disappointment—that we had
planned to go to Chicago and to visit Jennie, I noticed
that Maggie's face Showed something of disapproval and I
wondered what; but next day She told me that Jennie
was expecting confinement at any time now,
I said well this is all off now as Johnny only thought now
was to get well enough to go home—which was sooner
than the Dr approved but He couldent be held any longer
We Knew nothing of the arrival of the new baby on 3rd
floor till we were packing—John had asked Miss Bruce
to come home with us which she did & stayed till near
Spring time.

I never Knew any thing more of Jennies home affairs
I dont Know whether the Son you speak of is the baby
born at our visiting time or if the one expected at that
time is this girl you Speak of,
I dont Know of any thing that is any help to you
